(a) Index/Formula:

The Interest Amount per Calculation Amount (“I”) for each Interest Period, payable in arrear on each Specified Interest Payment Date shall be calculated by the Calculation Agent in accordance with the following formula, provided that (1) the resultant figure of the formula shall be rounded to the nearest whole JPY, with half a JPY being rounded upwards, (2) the resultant figure of the square bracket shall be rounded to the nearest six decimal places of one per cent., and (3) the resultant figure of the square bracket shall never be less than zero and never more than 4.25 per cent.:

$$I = \text{JPY } 50,000,000 \times [13.25\% \times (\text{FX1}/77.21) - 10.00\%] \times \text{Day Count Fraction}$$

Where:

“FX1” means the arithmetic mean of the bid and offered rate for JPY/Australian Dollars (“AUD”) exchange rates expressed as a number of JPY per AUD 1.00 which appears under the “AUD” column on Reuters Screen “JPNU” Page as of 3.00 p.m. Tokyo time on the Reference Date.

In the event that Reuters Screen “JPNU” Page (or such successor page) should not be available, or no such FX1 appears on Reuters Screen “JPNU” Page (or any successor page), in each case on the relevant Reference Date at or around 3:00 p.m. Tokyo time, then the Calculation Agent shall determine FX1 by requesting each of the five leading banks in the relevant currency and foreign exchange markets (the “Reference Banks”), as selected by the Calculation Agent, to provide a quotation for FX1.

If five or four such quotations are provided as requested, after disregarding the highest of such quotations and the lowest of such quotations (provided that, if two or more such quotations are the highest such quotations, then only one of such quotations shall be disregarded, and if two or more such quotations are the lowest quotation then only one of such lowest quotations shall be disregarded), the applicable rate shall be determined by the Calculation Agent as the arithmetic mean (rounded to the nearest five decimal places, 0.000005 being rounded upwards) of the remaining quotations of such rate.

If only three or fewer such quotations are provided as requested, the applicable rate shall be the arithmetic mean of such quotations as determined by the Calculation Agent.

If no such quotations are provided as requested, and the Calculation Agent determines in its sole discretion that no suitable replacement Reference Banks who are prepared to quote are available, the Calculation Agent shall be entitled to calculate the applicable rate in good faith and a commercially reasonable manner;

“**Day Count Fraction**” is 30/360 (unadjusted);

“**Reference Date**” shall be the tenth (10th) Tokyo, London, Sydney and TARGET Business Day prior to each Specified Interest Payment Date for the relevant Interest Period. For this purpose, the Specified Interest Payment Date is not subject to adjustment;

“**Reuters Screen “JPNU” Page**” means the display page “JPNU” designated on the Reuters Monitor Money Rates Service (or such other page as may replace that page on that service for the purpose of displaying JPY/AUD exchange rates); and

“**Tokyo, London, Sydney and TARGET Business Day**” means a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in Tokyo, London and Sydney and a day on which the TARGET2 System is open.
